

CRAIG AARON SCHWARTZ

405 E. 56th Street, Apartment 2J, New York, NY 10022 914.373.1348 | craigschwartz525@gmail.com

WORK EXPERIENCE

Trustpilot, Software Developer 2016

- Worked as a full-stack developer in the Commercial Growth team, supporting several of Trustpilot's business-facing websites.
- Created REST APIs using Node.js and Express to sync data between microservices.
- Developed several Lambda functions in AWS to carry out lightweight, repeatable business processes.
- Converted existing UI elements to reusable components in React.js for the Trustpilot careers website.
- Contributed to a fast-moving agile development team, deploying new functionality on a daily basis.

Citigroup, Assistant Vice President: Software Development 2014 - 2016

- Worked as a full-stack application developer in securitized markets for SPIRIT, a pricing and risk application for the securitized markets business.
- Led the build-out of the MIS module for Bid/Order tracking, which is used daily by over 100 traders and salespeople.
- Developed both front-end and server-side functionality for MIS using MVVM. Delivered production level code on an agile development schedule with releases every four weeks.
- Supported the C#/SQL based Management Reporting module, which provides critical reporting data to traders daily.
- Managed the reporting and recon build-out for Volcker regulations.

Citigroup, Analyst: Software Development 2013 - 2014

- Worked as a back-end application developer in fixed income for Finance Workstation, a global trade capture application.
- Developed several new server-side features and enhancements in Java. Performed day-to-day application support for a user base of over 100 finance desk traders worldwide.
- Interfaced with other internal development teams to create an enhanced STP messaging system via Tibco/EMS interface.
- Combined several Java modules into a single Maven build for single-click deployment.

Citigroup, ICG Technology Summer Analyst 2012

- Worked as an intern with the Rates Technology team.
- Created a Trading Dashboard using Excel/VBA for the Structured Credit Repo Desk.

The Lloyd Group Inc., Operations Intern 2011

- Responsibilities: Remote server management, scripting, programming, managed backup services, audits, and hardware builds.

TECHNICAL SKILLS

- Programming Languages: Node.js, React.js, Java, C#, SQL, Python, HTML, CSS/SASS, jQuery, Angular.js, PHP
- Software: Unix, Git, SVN, Eclipse, Visual Studio, AWS, CI/CD (Jenkins, TeamCity, Travis, Octopus), Microsoft Excel, RabbitMQ
